## TELECOMMUNICATIONS PROFESSIONALS – Middle East

We seek to recruit experienced Telecommunications professionals who have worked within the industry for over 5 years for positions based from the Middle East. With deregulation rapid across the territories and with one of the largest predicated growth rates in the use of communications anywhere in the world, we seek to recruit experienced consultants, sales professionals and delivery experts for contract, interim and permanent positions.

Our high profile client base seeks telecom experts who can work from the development of business opportunity through to satisfying delivery of major projects within the sector.

Based from the region, you will receive the tax free salary, enjoy the high standard of living and be able to put back into the market the valuable insight you will have gained from your experience of the business in Europe.

We seek a variety of backgrounds from both within the telecommunications industry or from having consulted into the market from anywhere in the world.

The primary functions include project management, client management and team leadership.

For further information, please e-mail your Curriculum Vitae to [Marianne Bastin](#) or telephone her on +44 (0)20 7153 1081.
